Complete Collaboration Solution for Small Meeting Spaces

Solstice Conference paired with the Logitech MeetUp combines the reach of video conferencing with the power of rich, multi-participant content sharing to enhance the collaboration experience between onsite and remote users.

This room solution delivers the convenience of a traditional room system with the flexibility to use any conferencing service installed on the meeting host’s laptop.

Solstice Conference
- Multi-participant content sharing from any device
- Agnostic support for all major conferencing services
- Easy, one-step start from the meeting host’s laptop
- Wirelessly connects the Logitech MeetUp system to the conference
- Enterprise-grade security and fully IT-compliant
- Cloud-based deployment management and analytics

Logitech MeetUp
- Compact all-in-one ConferenceCam with integrated audio
- Ultra HD video with advanced zoom and life-like video quality
- Super-wide field of view and auto-framing of participants in the room
- Custom-tuned speaker refined for huddle room acoustics
- Omni-directional microphones reduce noise and echo
- Plug-and-play USB connectivity

Meeting Host Laptop
- Requires Windows or macOS laptops to host meetings
- Supports Zoom, Teams, and most other conferencing apps
**System Components**

**Mersive Solstice**
- Solstice Pod Gen3
- HDMI cable
- Power supply

**Logitech MeetUp**
- MeetUp ConferenceCam
- Remote control
- USB cable: 16 ft (5 m)
- Power supply
- Wall mount and hardware

**Additional Requirements**
- Meeting host laptop (Windows or macOS)
- Web conferencing service (Teams, Zoom, GoToMeeting, etc.)

---

**Installation Instructions**

1. Place or mount the Logitech MeetUp, then connect to power.
2. Attach the Solstice Pod to power and the local Ethernet and/or wireless network (PoE+ supported).
3. Connect the MeetUp to the Solstice Pod via USB.
4. Connect the Pod to the display monitor via HDMI (outer HDMI 1 port recommended). An optional second display monitor can also be connected to the Pod.
5. As a note, Mersive recommends configuring the Solstice Pod’s basic settings, such as updating the display name to match the room name.

For conferencing support, meeting hosts simply install the Solstice app on their laptop device along with their web conferencing application of choice. As a note, the host laptop must be connected to the same network as the Pod.
## Technical Specifications

### Solstice Pod Gen3
Part #: SP-8000-E1

- **Supported user devices**: Windows, macOS, iOS, Android, Chromebook, Linux
- **Number of users**: Unlimited
- **Number of content posts**: Unlimited
- **Solstice app features**: Conferencing Support (meeting hosts only, Windows and macOS supported), Share desktop, application window, image file, video file, Intuitive drag-and-drop layout control, Wireless annotation via smartphone
