

## How to Connect

Open the Solstice App, find your room's display, then click to connect.

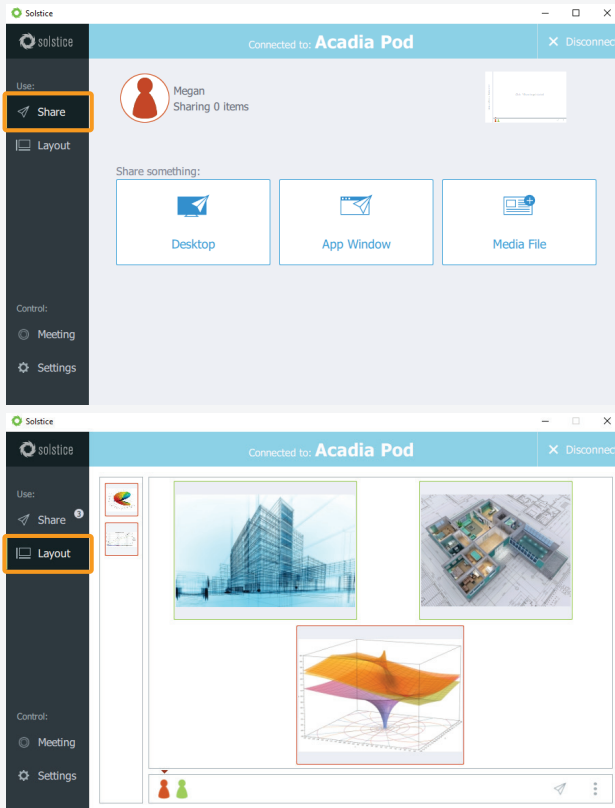

If prompted, enter in the 4-digit screen key visible on the display.

## How to Share and Control Content

Share content to the display using the options on the Share panel.

Arrange and control shared content on the Layout panel.

### Other Ways to Use the App

- Drag and drop posts on or off the on-deck panel on the left side of the app.
- Click and hold, or right-click a post to view options to make it full screen, create a stack, or delete it.
- Pinch-to-zoom a post on touch-enabled devices.
- On mobile devices, press and hold the red dot to temporarily markup the display.

## Need the Solstice App?

Enter the IP address on the display into a web browser, then click **Get the app & connect** to download. On a mobile device, download the free Solstice App from the app store.
